# ABOUT US

We specialize in manicure, pedicure, and waxing for both men and women. Escape from your busy schedule and indulge yourself with our luxurious treatments to pamper, rejuvenate and restore your body and mind. At Palace Nail Lounge, your health and safety come first. We use hospital-grade AUTOCLAVE to sterilize all metal instruments. Basin soaks eliminate bacterial problems associated with pipe-less jet pedicure chairs. In addition, nail files, buffers, and slippers are disposed of each time after use.

# TIPS AND TRICKS FOR NAIL CARE & BEAUTY

When it comes to taking care of our skin and beauty, nails always remain on the back foot. We often tend to forget that our fingers are the most used and abused part of our body. Regular and professional nail care ensures that your nails remain strong and infection-free. We at [nail salon Gilbert](#) provide you with services that are not only economical but also make your nails dazzle.

Nail care can be done at home but if you consistently get it done from professionals the treatment will last longer and give your nails a polished look. Unhealthy nails can be the cause of many diseases and they might not boost your confidence anywhere.

Nail art can be a costly affair but we make it affordable by offering various packages according to your needs. We can even provide you with customized packages which best suits your requirements that cover all the things that you need to get done.
